

LO-RAILER

The Dymax Lo-Railer is the perfect choice for any railroad or transit working in railway construction and maintenance. Since the 1970's Lo-Railers have been used to spread ballast, haul machinery and to deliver track supplies. Featuring 35 ton rated hauling capacity and up to 26 feet of deck space.

Dymax Lo-Railers can be made to fit your application. Contact DymaxRail for specialized applications such as third rail track systems, narrow or broad gauge networks.
