

MULTIPURPOSE WORK PLATFORM**MORE CAPACITY. FASTER ACCESS.****MOVE ON ROAD AND RAIL.****MULTIPURPOSE WORK PLATFORM**

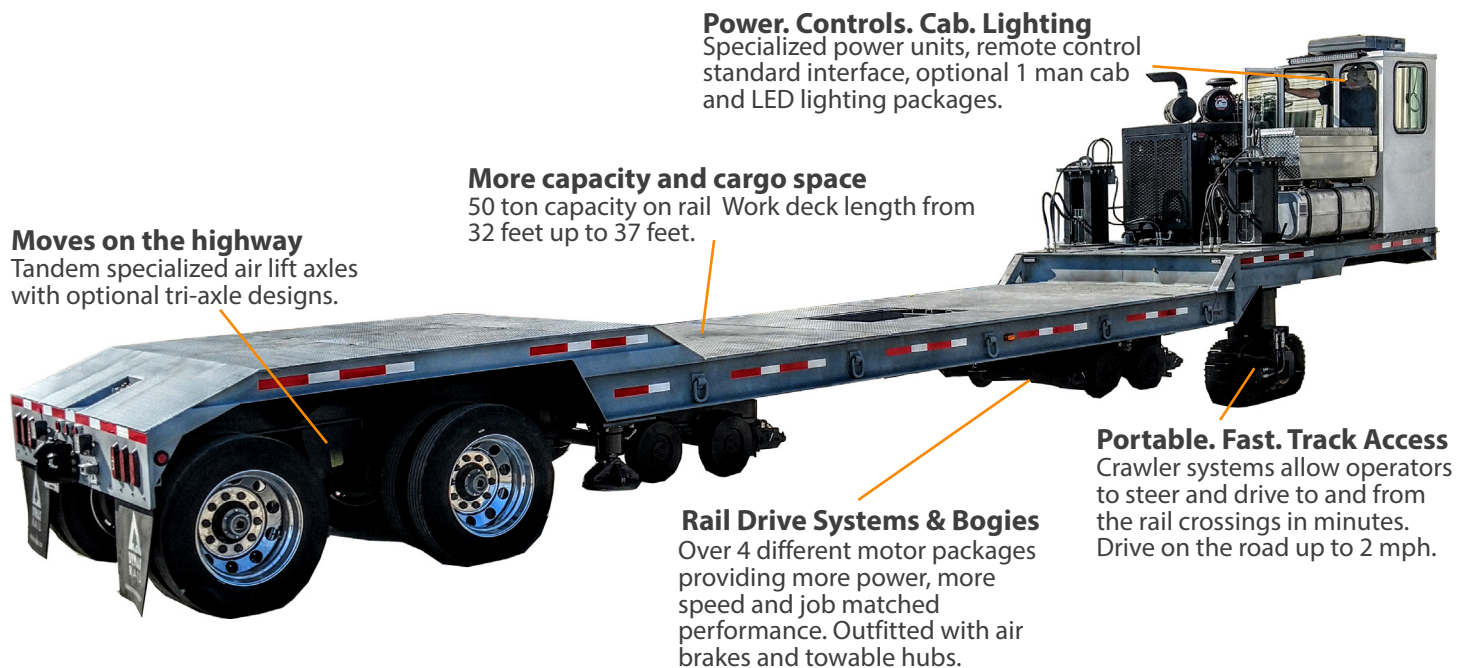

DymaxRail's Multipurpose Work Platforms are extremely versatile for use in railway construction and maintenance applications. The DymaxRail Multipurpose Work Platform features 50 ton capacity, powered track drives, specialized air lift axles and hydrostatic railgear all of which give operators increased work site mobility. Crawl to and from rail crossings in minutes.

Move the platform on the road using a conventional tractor trailer and simply drop off at the jobsite. Reach your destination faster and more efficiently. Ideal for moving reels of cable, poles, pipe, structures, box culverts, railway track panels, manlifts and can be equipped with articulated cranes. Let us move you there. Contact DymaxRail today 1-800-530-5407.

50 TON CAPACITY • FAST RAIL ACCESS

Dymax Railway work platform drives itself on roads and railways and can be towed on federal highways.

Model	Description
DX-MWP-TRX-48ftx102inx50T	Multipurpose Work Platform – Trax – 48 feet overall length x 102in wide x 50 ton capacity
<p>Standard Features: 50 ton capacity work platform • 32 feet deck length • Two 17,200lb air lift specialized road axles • Tier4 final hydraulic power unit with hydrostatic pump • Beam construction using high tensile strength steels • Three hydrostatically driven railway axles with oscillation bolster • Steerable track drives with pads • Remote control system • Lighting package with auto-directional change • Travel Alarm • D-ring tie downs • Beacon • Fire extinguisher • Toolbox • Air horn • Airbrake group with replaceable shoes • Gladhands at both ends of trailer • 1 set of platform stabilizers</p>	
DX-MWP-TRX-53ftx102inx50T	Multipurpose Work Platform – Trax – 53 feet overall length x 102in wide x 50 ton capacity
<p>Federal excise tax applies to all MWP platforms. Design and specifications are subject to change without notice.
