

WATER TRAILER

DymaxRail's Mobile Water Trailer for railway applications features a 2" high pressure centrifugal pump system and is ideal for dust, fire suppression and vegetation control. With 525 gallon capacity operators can quickly wash down areas around railway lines in arid or dry environments. Ideal for deploying with work crews and hi-rail trucks but can also be used with other high rail or roadway work equipment.

Dymax railgear easily deploys through the push button controller and features self contained, plugless solar powered auto directional lighting systems, spot lamps and travel alarm. All rail systems are installed and tested on rail prior to shipment. Provided with towbar and stowing location.

PORTABLE

APPLICATIONS

Model Code	Description
DX-WT-RR-525G-56.5	Water Trailer – Railway – 525 Gallon – 56.5 inch track gauge
<p>Standard Features:</p> <ul style="list-style-type: none"> • Base Multiquip W5TC Water Trailer • Trailer Weight with Railgear Systems Dry – 2,610 lbs • Trailer Weight with Railgear Systems Weight – 7,000 lbs • 525 gallon tank max capacity • 2 inch centrifugal pump • Rear spray bar • Hose kit • DymaxRail Hydraulic Pump • Push button control • Front hydraulic railgear with stow pin lock • Rear hydraulic railgear with spring suspension and stow pin lock • Solar powered plugless directional lighting systems • LED spot lamp • Travel Alarm • Pintle Hitch • Adjustable road/truck hitches (2 5/16 ball and 3" pintle) • 4ft Towbar with stow rack
